Preescolares

NEW PRESCHOOL DESIGNS

- ▶ These new designs guarantee greater comfort for our children, where colors and shape simplify and motivate learning:
- ▶ Play Rooms.
- ▶ Internal Sanitary Services with adjusted dimensions and elements that allow inclusiveness.
- ▶ Large windows to avoid claustrophobia.
- ▶ Furniture.

AULAS

PRIMARY EDUCATION

We have improved the conditions of 5,363 schools nationwide, this with the support of financing from National Resources, External Resources, Municipalities and NGOs.

MULTIGRADE PRIMARY

The policies for Multigrade Primary of our Good Government are aimed at sectors that had not had access to education, therefore flexible modalities have been opened.

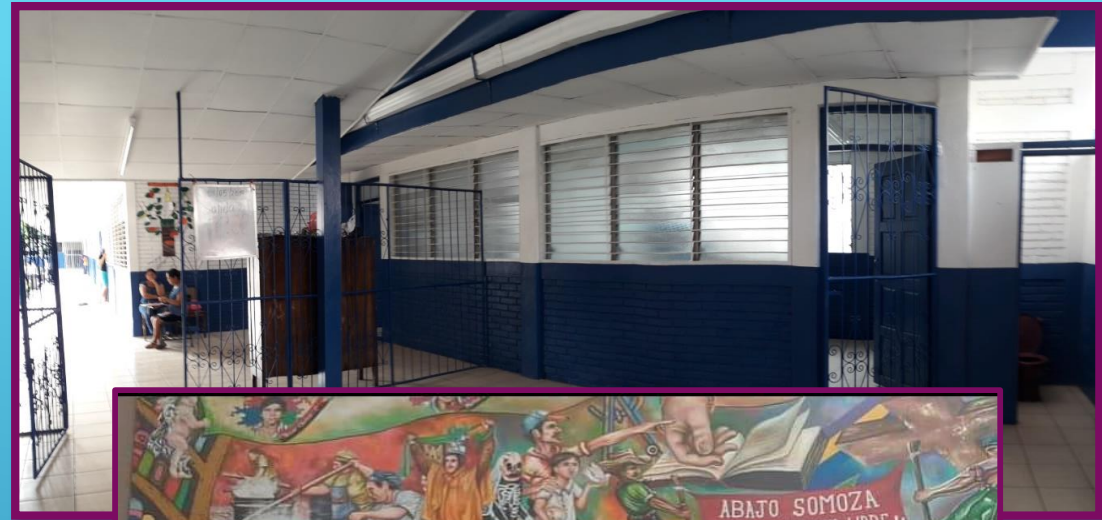

Since 2015 we have attended more than 200 School Centers where the Multigrade Primary modality is carried out to expand coverage within the educational community.

SECONDARY EDUCATION

We have improved the conditions of 1,108 schools nationwide, this with the support of financing from National Resources, External Resources, Municipalities and NGOs.

REMOTE HIGH SCHOOL

The policies of our Good Government are aimed at sectors that had not had access to education, therefore flexible modalities have been opened such as Distance Secondary modality in the Countryside.

Since 2015 we have attended more than 250 School Centers where Distance Secondary modality is carried out in the Countryside, restoring the right to basic education of families in rural areas.

SPORTS FIELDS

To strengthen sports practices, Public Investment projects have been building and rehabilitating sports fields for the practice of soccer, volleyball and basketball.

This includes metal frame ceilings, bleachers, lighting systems.

SCHOOL INFRASTRUCTURE WITH INCLUSIVE DESIGNS

To guarantee conditions in which children with physical-motor disabilities can access all school environments, universal accessibility conditions are guaranteed in every School Infrastructure project

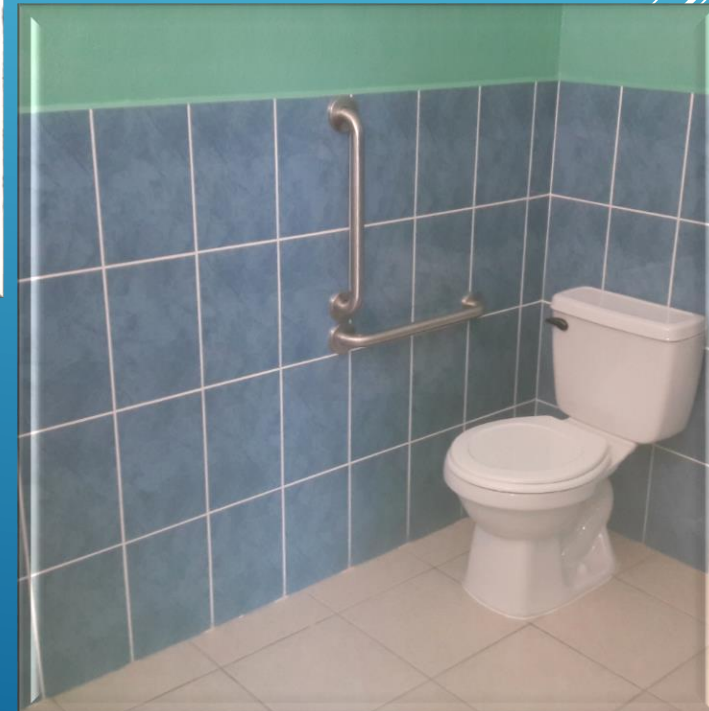

SCHOOL INFRASTRUCTURE WITH INCLUSIVE DESIGNS

Example of these conditions are:

- Ramps with guardrails.
- Drinkers for children in wheelchairs.
- Restrooms with support bars.
- Adequate signage for children with physical disabilities.

Upcoming projects and investments in School Infrastructure.

For 2020 and 2021 we will be executing works in 65 schools nationwide, equivalent to an estimated amount of C\$ 1,171.03 million.

- Remigio Salazar School Center in El Viejo, Chinandega.
- Eudomilia Ruiz Noguera School Center in Nandaime, Granada.
- Ninfa Segura School Center in Santa Maria de Pantasma, Jinotega.
- Azul y Blanco School Center in Managua.

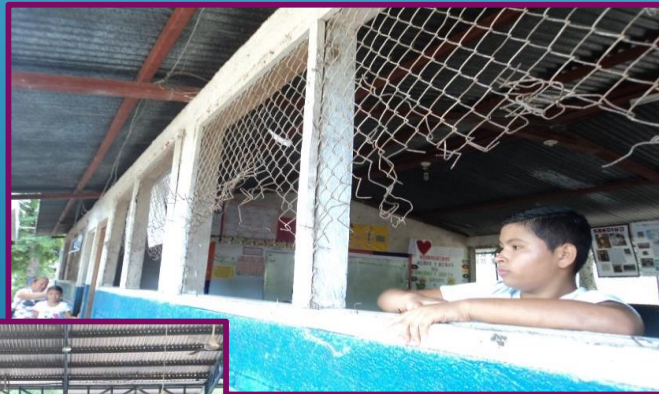

Our Good Government is reinforcing the investments aimed at guaranteeing access to water and sanitation in all the communities of our country, for which the Ministry of Education is designing and implementing strategies to guarantee preventive health.

With the Maintenance Plan, 166 schools will be executed with an amount of C\$ 156.61 million.

Likewise, we will provide furniture with 159,984 desks and for a total of C\$ 153.64 million.

Likewise, 2,154 blackboards will be provided to National Schools with an amount of C\$ 6.8 million.
